About Me

UI/UX Designer skilled in Figma with a keen eye for clean, user-friendly design. I draw inspiration from Behance, Dribbble, Mobbin etc and enhance visuals using Premiere Pro, Photoshop, and Lightroom.

Professional Experience

- **UX UI Designer Intern (45 Days)**
Tech Glock

Started my professional journey by learning the fundamentals of UI/UX design. Gained hands-on experience with Figma, user flows, wireframes, and visual design. Collaborated with the team on real-world projects, enhancing my understanding of user-centered design.

- **UX UI Designer Intern (45 Days)**
IMD Shimla

Designed web interfaces and visual content for institutional display screens. Created user-friendly layouts and graphics using Figma and Adobe tools, contributing to the digital presentation of meteorological data.

- **UX UI Designer Intern (6months)**

Playtplus
Currently working here*

My role is to complete the mobile app design and create its desktop version from scratch. Conduct user research, define user flows, and complete missing screens to improve usability and consistency. Apply end-to-end design thinking to deliver a cohesive and modern product experience.
